

cxx\_special\_functions  
/include/emsr/sf\_gegenbauer.h

```
graph TD; A["cxx_special_functions  
/include/emsr/sf_gegenbauer.h"] --> B["emsr/fp_type_util.h"]; A --> C["emsr/detail/sf_gegenbauer.tcc"];
```

The diagram illustrates the relationship between the `cxx_special_functions` header and its dependencies. The top box, which is shaded gray, represents the header file `/include/emsr/sf_gegenbauer.h`. Two blue arrows point downwards from this box to two separate white boxes below it. The left box contains the file `emsr/fp_type_util.h`, and the right box contains the file `emsr/detail/sf_gegenbauer.tcc`. This indicates that the top header file includes or depends on both of these files.

emsr/fp\_type\_util.h

emsr/detail/sf\_gegenbauer.tcc
