

cxx\_special\_functions  
/include/emsr/sf\_distributions.h

```
graph TD; A["cxx_special_functions  
/include/emsr/sf_distributions.h"] --> B["emsr/fp_type_util.h"]; A --> C["emsr/detail/sf_distributions.tcc"];
```

The diagram illustrates the include relationships for the `cxx_special_functions` header. The header file `/include/emsr/sf_distributions.h` includes two other files: `emsr/fp_type_util.h` and `emsr/detail/sf_distributions.tcc`. The relationships are shown as arrows pointing from the top header to the two included files below it.

emsr/fp\_type\_util.h

emsr/detail/sf\_distributions.tcc
