The diagram illustrates the relationship between the `cxx_special_functions` header and its dependencies. A central box at the top, with a grey background and a black border, contains the text `cxx_special_functions` and `/include/emsr/sf_owens_t.h`. Two blue arrows originate from the bottom of this box. One arrow points down and to the left to a white box with a grey border containing `emsr/fp_type_util.h`. The other arrow points down and to the right to a white box with a grey border containing `emsr/detail/sf_owens_t.tcc`.
