

cxx\_special\_functions  
/include/emsr/sf\_beta.h

```
graph TD; A["cxx_special_functions  
/include/emsr/sf_beta.h"] --> B["emsr/fp_type_util.h"]; A --> C["emsr/detail/sf_beta.tcc"];
```

The diagram illustrates a header file's dependencies. A central box at the top represents the header file `cxx_special_functions/include/emsr/sf_beta.h`. Two blue arrows originate from the bottom of this box, pointing downwards and outwards to two separate boxes below. The left box contains the file `emsr/fp_type_util.h`, and the right box contains the file `emsr/detail/sf_beta.tcc`. This visualizes the `#include` relationships defined within the header file.

emsr/fp\_type\_util.h

emsr/detail/sf\_beta.tcc
